REASONS FOR ALLOWANCE

Claims 43-49, 51-56, & 58-64 are allowed.

The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record.

With respect to independent claim 43 and its dependents, the subject matter not found was the device for occluding a vascular segment comprising the combination of a tubular member having a partially braided expandable member at the distal end of said tubular member, an occluding membrane encapsulating the expandable member, the membrane being configured to completely occlude blood flow in the vascular segment, and an elongate member having disposed longitudinally within the tubular member and the elongate member having a distal end portion connected to the expandable member, and wherein the longitudinal movement of the elongate member between a first and a second position moves the expandable member from a collapsed to expanded configuration in combination with the other elements (or steps) in the claims.

With respect to independent claim 55 and its dependents, the subject matter not found was the device for occluding a vascular segment comprising the combination of a tubular member having an expandable member at the distal end of said tubular member, a covering disposed over the expandable member configured to expand with the expandable member and configured to interrupt fluid flow in the vascular segment, and an elongate member having disposed longitudinally within the tubular member and the elongate member having a distal end portion connected to the expandable member,

and wherein the longitudinal movement of the elongate member between a first and a second position moves the expandable member from a collapsed to expanded configuration in combination with the other elements (or steps) in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
